HOPKINSVILLE, APR. 18, 1882

Democratic State Ticket.

For Clerk of the Court of Appeals,
THOS. J. HENRY,
OF MORGAN COUNTY.

There is a rumor that Jas. G. Blaine will be the Republican candidate for Governor in Maine.

Secretary of War, Robt. T. Lincoln, is to be allowed to retain his position in Arthur's Cabinet.

The new camel will be visible to the naked eye in about ten days. It will be very brilliant about the middle of May.

Mr. Curtis Wey has become joint proprietor and associate editor of the Fulton Index and the paper will be enlarged and improved.

Hon. Thos. Allen, a Democratic member of Congress from Missouri, died last week. His remains were interred at Pittsfield, Mass.

The body of Robt. Kelly, the hero engineer of the Golden City, who died at his post in the Memphis disaster, has been recovered and identified.

About 1,100 bills have passed the two houses of the legislature and been signed by the Governor. About 200 have been rejected and there are over 500 not yet voted upon.

Three members of the legislature have died since the body came together less than five months ago. Is not this an argument against Frankfort as a location for the Capital?

The State Executive Committee will investigate the charges against Capt. Henry this week. We trust it may be developed that they were either false or greatly exaggerated.

The Republicans are well satisfied with the Congressional apportionment. The Louisville Commercial modestly (?) claims that the Republicans will carry four of the eleven Districts.

Geo. M. Chilcott, of Denver, has been appointed to succeed Teller as Senator from Colorado. The appointment was taken from obscurity by Gov. Pitkin and much dissatisfaction is expressed.

Judge Baxter, of the Paducah Federal Court, has decided that the school law that provides for the payment of \$100 apportionment tax by colored voters is unconstitutional. Judge Barr, of Louisville concurs in the decision.

95 of the 105 members of the Rhode Island Legislature favor the re-election of Hon. H. B. Anthony to the United States Senate. If elected Senator Anthony will enter upon his fifth term next March. He has been in the Senate for 23 years.

For pure unadulterated check Giltone's brother-in-law, Scoville, not only takes the cake but acquires the whole confectionery and bakery. He has presented his bill to Congress asking to be paid for his services as counsel for the assassin.

Gov. Crittenden, no doubt thought he was doing the State of Missouri a great service in procuring the assassination of Jesse James, but the whole press of the country is down on him in charging him with being a party to the crime of assassination.

The legislative apportionment will be made this week. The indications are that Christian county will get her deserts, and be given two Representatives. The Daviess county members are very much excited over the prospect of losing a member to which they have never been entitled.

The Breckinridge News, Hartford Herald, Columbia Spectator, Illinois Courier, Ashland Express, Muncie Echo and one or two other Democratic papers have condemned Capt. Henry, on Republican testimony, without giving him a hearing and refuse to support him longer.

If Clarence McElroy goes to Congress from the third district he will have to beat Col. Bill Yost, the Muncie giant. He is undoubtedly the tallest timber in the district. Mr. McElroy may congratulate himself that his most formidable opponent is put into another district.

The Hartford Herald is kicking because Ohio county is taken out of the Second District and put into the Fourth. There seems to be universal rejoicing throughout the District that the hot bed of sororhood and political hermaphrodites has been transferred to another district.

John F. Slater, a wealthy merchant of Norwell, Conn., has created a fund of \$10,000 to be known as the "Jas. F. Slater Fund," for the education of the colored race. The fund is to be vested in a board of trustees which includes R. B. Hayes, Chief Justice White, Wm. E. Dodge of New York; Philip Brooks of Mass.; A. H. Colquitt of Georgia; Daniel C. Gilman, of Maryland; Jas. P. Boyce, of Kentucky; Jas. A. Stewart, and Morris N. Jessup, of New York and Wm. A. Slater, the donor's son. The fund will be appropriated to the education of negroes for the colored race.

NONSENSE.

Furniture stores are chair-a-table institutions.

The Paducah Enterprise has stopped coming to this office, hence these tears.

Many a man who sells on credit realizes the full meaning of the hymn, "A charge to keep I have."

Bartman's big elephant, Juno, is now attracting more attention than any other beast in the country.

No sunny, all of the editors who have dropped Capt. Henry around Sunday school superintendents.

In the battle of life things are pretty much as they are in a church. There is always room in front while the back seats are crowded.

The auditor's report shows that there are 350 bills in the D. White's district, not including Mr. White and the voters who elected him.

Mr. Curtis Wey has become joint proprietor and associate editor of the Fulton Index and the paper will be enlarged and improved.

arcs have a lot of fellows as ever wrapped up in so many fables. They are no trouble to show off and the miners and on them were paid by the bushel for the coal, they sing, the country with which they treated us did not cost their employers anything. To one who has never before witnessed it, the sight of miners at work is interesting and suggestive. Enveloped in stygian darkness which is scarcely pierced by the feeble rays of their little lamps, delving and working with pick and shovel during all the live long day that gives them no rest and no bird song, they present a dismal picture. But their hearts are as warm as their occupation is gloomy and cordially knows no warmer grasp than they give the hand of a stranger.

Cadiz and Hopkinsville.

War on our Brothers Menchies, for waging Cadiz first in the heating. We had written to before noticing the mistake. We will, however, agree to always write the name of your city first, and in capital letters if you will do us the kindness of building a Telephone line from Hopkinsville to Cadiz. We need it, and you need it. Every day complaint is made on our streets, because we have not more direct and speedy communication. There are men here ready and anxious to aid the enterprise. Call attention to it and let us have the line.

Nothing would be more gratifying to us—and by us we mean all the citizens of Hopkinsville—than to have telephone connection with Cadiz. We have interrogated Mr. Hess, who is managing the Exchange here, and he estimates the cost of erecting a line to Cadiz at \$2,000. This sum ought to be raised without any trouble whatever. We are sure Hopkinsville will do her part, but as Cadiz is to be most benefited she should bear the greater portion of the expense. Let the matter be talked up and if the people of Cadiz want to be joined to the outside world they can get the telephone at a trifling cost. It will help to secure it.

Messrs. Wheeler & Osburn, Bondholders and Stationers, Nashville, Tenn., advertise this week. This is a firm well known to many of our readers as prompt and trustworthy in all their dealings. Parties having magazines, manuscripts &c., that they wish to preserve cannot do better than have them bound at the above mentioned bindery. Merchants dealing in ledgers, journals, day-books, blotters, should send their orders to Wheeler & Osburn, No. 20 Cherry St., Nashville, Tenn.

The Chair Factory of Messrs. Pyle & Claude is now in successful operation and they are turning out about four dozen chairs per day. They have a saw mill attached and buy the rough timber and saw it, turn it, and make it into chairs equal to any on the market. They have just finished several hundred walnut chairs, made from lumber bought from wagons. The factory is, of course, a small one but it may be regarded as one of the progressive and substantial enterprises of the city. The factory will give employment to about half a dozen hands. The chairs will be made and supplied to retail dealers at wholesale prices and there is no reason why the gentlemen conducting the enterprise should not build up a big trade.

Lane Journal read by Miss Neilia Blakey.

At the conclusion of the programme Miss Entress sang a selection in an entertaining style, after which Prof. Just announced that the young ladies would be allowed to participate in the social features of the evening's entertainment.

About the first of the year W. R. Anthony, of Louisville, came to this city, professing to be an agent of Stearns, a plebeian paper published in Louisville. He had a letter from the editor, J. K. Mulkey, to the press, stating that Anthony was authorized to receive subscriptions for Stearns and requesting that material favors be given to him. We treated him as courteously as we knew how and gave him liberal notices in one column. He sold here several days and succeeded in getting quite a number of subscribers at \$1.00 each, not one of whom has ever received a number of the paper. Some of them have written repeatedly, but have not been able to get their money back. There is a large sized screw loose somewhere and somebody ought to be indicted for obtaining money under false pretenses. We understand that Stearns collapsed before Anthony victimized the citizens here and at other places.

The next open session of the Church Hill Grange will be held on Wednesday before the 4th Friday. This change is in compliment to the divine conference meeting on the 4th Friday.

The programme will consist of a short drama "Sweethearts," a variety of music and a new feature styled the "Broom Brigade" followed by a barbecue.
